

YOUR PRESCRIPTION: WHAT WE NEED

Firstly, we need a copy of your prescription with the **Lens Type** (Readers, Distance, Bi-Focal or Multi-Focal) and most importantly we need your **Pd (pupil distance)**. The **Pd** is your Pupil Distance in mm's. **Pd's** and **Lens Type** are not usually added to prescriptions. So please, contact your optical shop to include the details.
(See **sample prescription**)

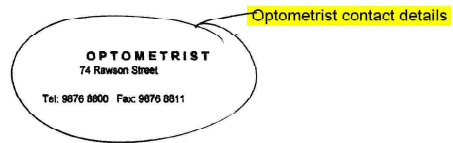

We'll also need your mobile number and a delivery address.

Email (info@twinshields.com.au) or text (**0412 704 313**) the prescriptions. Let us know which frames you've chosen and any extras you may want. If we have any queries, we'll contact you to clarify.

We'll then send you a quote.

When you give us the **OK** to go ahead and made payment, we'll organise to make glasses. You can expect delivery within two weeks.
